

Is the Trusted Coach Directory right for you?

- Are you an executive, leadership, performance or career coach, or coach supervisor?
- Are you frustrated that you don't have the time or skills to market your services?
- Would you prefer to be helping clients and developing your own coaching skills, rather than making sales calls, writing newsletters and networking?

If the answers are yes, then let the **Trusted Coach Directory** be part of your marketing department.

We spend most of our time ensuring that the website is being found by your ideal clients in larger organisations, working on and offline. We are networking, making sales calls, building relationships and generating traffic to the directory, and to your website, on your behalf.

The **Trusted Coach Directory** has been developed to showcase who you are, what you do, your areas of expertise and how you help your clients achieve success.

Being a '**Trusted Coach**' demonstrates that you have:

- Membership of a professional coaching body (*see minimum requirements below)
- At least three years formal/paid coaching experience
- Relevant coaching qualifications
- Regular coach supervision
- Agreed to adhere to the AC/ICF/EMCC/IAPC&M or APECS code of ethics
- Professional Indemnity and Public Liability insurance
- Been reference checked
- Helped clients to get great results

What else?

In addition to promoting your profile, you have access to, and can contribute to, our portal of resources to help you continue your own professional development.

- Join the quarterly 'Meet the Coach' events when you can meet other coaches and HR professionals.
- Keep up to date with useful events, i.e. coaching conferences, workshops, webinars and work opportunities.
- Take advantage of our specially negotiated rates for attending workshops.
- Contribute by writing guest blog posts.
- Advertise your workshops.
- Submit articles.
- Run webinars demonstrating your area of expertise.
