

"Support" for coaches

Peer supervision

Regular supervision is a critical aspect of practice that supports our skills, develops and deepens knowledge and provides a safe space to reflect and replenish.

BREAST CANCER AWARENESS MONTH OFFER

To support you and to help breast cancer patients worldwide who can't afford medication or treatment, 10% of the booking fee for the peer coaching supervision sessions will go to Breast Cancer Support. The cost will be £55 for a 2-hour session (limited to 4 participants).

If you still are not sure it's for you, here's what previous coaches said about working with me in a peer coaching session.

"Helps shine a light on how coaching sessions should go, i.e. subconscious expectations; I like supervision!"

"The power of a group which I had previously steered away from, such a huge power"

"The depth and difference that others bring"

"Sense of more confidence, whilst other thoughts are not the same, they are valued"
